

Knifty Knit Coaster

Supplies

Less than 1 skein of yarn.

Blue Knifty Knitter loom

Large eyed needle

Wrap all the pegs of the blue loom and then knit 8 rows around. Reach into the loom and pull up the 1st row of stitches over the pegs. Knit row 8 off. Knit 3 more rows. Cut thread, leaving a long tail. With large eyed needle and the tail lift all the stitches off, pulling gently to close row 11 in circle. Row 11 will be the middle of the coaster. For a peppermint coaster cast on pink and red or other mint like colors. Alternate the two colors, e.g. knit 1 red, knit one pink. Be sure to keep the reds and pinks in a column. In the closing row wrap all pegs in red and lift off to close.
